7.3 Give two Best Practices of the institution

- **Students feedback on the performance of faculty** is collected in the prescribed format in regular intervals and systematically analysed by the committee. The suggestions given by the students are discussed in staff meetings and necessary action is initiated to overcome the deficiencies if any.

- **ii. Pollution free campus** – maintaining greenery, avoiding plastic usage in the college premises:

To create awareness among the students' community and others, observation of vehicle free day, Plastic free day are taken up.

Vehicle free day is being regularly observed on the 1st Friday of every month so as to protect air pollution. Vehicles emanate poisonous gases like carbon mono oxide etc. which spreads out in to the air causing lot of problems to the living beings.

Similarly plastic free day is observed on the Saturday of every week to bring change among the students not use plastic since it is harmful to the society. In this way the students are created an awareness to avoid use of plastic so as to prevent environmental pollution.
