Student Satisfaction Survey

Our institution has conducted the offline Student Satisfaction Survey regarding Teaching – Learning and Evaluation, which help to upgrade the quality in higher education. The students were responded to all the questions given to them in the prescribed format with their sincere effort and thought. The identity of the students is not revealed. The survey showed that all the faculties were covered 85 to 100% of the syllabus in the class room. The teachers were prepared thoroughly for the classes and they are effective in communicating with the students. The reports showed that they are excellent in teaching approach. They are always fair in evaluation process and in evaluating assignments. The institute took significant interest in promoting internship, student exchange and field visit opportunities for students. The teaching and mentoring process in this institution was significantly well. Students strongly agree that the institution provided multiple opportunities to learn and grow. Teachers regularly inform the students about their expected competencies, course outcomes and programme outcomes. Mentor usually gives necessary follow-up with in an assigned task. The teachers every time illustrate the concepts through examples and applications. The teachers fully identified the strength and encourage the students with providing right level of challenges. They strongly agreed that the institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process. To the great extent the institution uses student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences. Above 80% of teachers use ICT tools such as LCD Projector, Multimedia, etc. while teaching. So the student satisfactory survey showed that the overall quality of teaching learning process in this institution is very good.
